ANUSHREE

B.E. Computer Science & Engineering (AI & ML) Student

Mangaluru, Karnataka, India | anushreeadyanthaya@gmail.com | linkedin.com/in/anushree-adyanthaya-78829932a | github.com/anushr

PROFESSIONAL OBJECTIVE

Computer Science and Engineering (Artificial Intelligence and Machine Learning) student at AJ Institute of Engineering and Technology seeking software development and AI/ML internships or entry-level opportunities. Dedicated to writing clean, maintainable code, exploring machine learning models and data science, and quickly mastering emerging technologies to build purposeful solutions.

EDUCATION

AJ Institute of Engineering and Technology — **Expected 2028**

Bachelor of Engineering (B.E.) — Computer Science & Engineering (AI & ML)

Current Academic Status: 5th Semester | Location: Mangaluru, Karnataka

TECHNICAL SKILLS

- **Frontend Development:** HTML, CSS, JavaScript, React
- **Programming Languages:** Python, Java, C, C++
- **Databases & Querying:** SQL

PROJECTS

HackAce 2.O — **Winner — HackACE International Hackathon 2026**

- Smart team finder platform engineered for students and competitive hackathons.
- Integrated resume builder module to streamline participant profiling and team matching.
- Note: Project repository and demonstration links to be added upon public release.

Hacknima 2. — **Finalist — Hacknima 2026**

- User-friendly filtering application specifically tailored for student workflows and data discovery.
- Focused on intuitive user interface design and responsive filtering interactions.
- Note: Project repository and demonstration links to be added upon public release.

ACHIEVEMENTS & ACTIVITIES

- **Winner — HackACE International Hackathon 2026**
  Awarded first place distinction in international hackathon competition.
- **Finalist — Hacknima 2026**
  Recognized as project finalist in competitive student technical challenge.
- **Hacktoberfest 2026 Participant**
  Participated in the global open-source software contribution initiative.
- **Workshop on RC Model using Artificial Intelligence**
  Hands-on practical training exploring AI model integration with remote-controlled hardware.

AREAS OF INTEREST

Artificial Intelligence • Machine Learning • Data Science • Continuous Learning & New Technologies
